

taskdesignr

An R package for experimental data collection

Jonathan Trattner's thesis

Goal: Publication of the taskdesignr package on CRAN and (ideally) in JOSS.

Major deadline: Final thesis presentation on April 26th, 2021.

Schedule:

Date	Deliverable
2021-04-26	Final thesis presentation
2021-04-12	Final edits to presentation
2021-03-29	Incorporate thesis edits
2021-03-15	Turn in the presentation draft to Dr. D'Agostino McGowan
2021-03-01	Final presentation figures
2021-02-15	Turn in thesis draft to Dr. D'Agostino McGowan
2021-02-01	Utilize taskdesignr to recreate SBORG in Shiny.
2021-01-18	Finalize architecture functions
2020-12-21	Create defineTrial and defineRun
2020-11-30	Create the starterInfo and phaseInfo functions
2020-11-16	Finalize the defineScreen function
2020-11-2	Create screen functions (displayGraphic, displayQuestion, displayChoiceButtons, displaySlider)
2020-10-19	Finalize onboarding component (including server side logic for tracking subjects across multiple sessions)
2020-10-5	Finalize addDemographics function (as Shiny module)
